As an illustration of the diffusion of Nihilism in high quarters in Russia it is stated that in the apartments of one of the Empress's Ladies of the Palace, Countess Panie, Nihilist publications were recently found concealed in her bedclothes. She has been banished to Archangel, but doubtless Nihilism has not been expelled with her from the palace.

A veiled figure entered a sick woman's room at Grand Rapids, handed her a phial, and said mysteriously: "That is the boss medicine—take it—it will cure you." Notwithstanding the slang, the woman regarded the visitor as supernatural, and took the prescribed dose; but it proved to be poison, and her life was barely saved. The poisoner has not been discovered.

THE STAR SIRIUS.

An object of wonderful beauty in the evening sky is the star Sirius, which now sets about 11 o'clock. About 10 o'clock last night it was hanging low over the Sierra, looking like a great flashing diamond in the heavens. The light of Sirius, when near the zenith, is white, but all stars usually seem colored as they near the horizon, owing to the refraction of their rays through a greater extent of atmosphere. Sirius, or the Dog star as it is often called, was known to the ancients as a red star. Its color has since changed, as has been the case with other stars. Last evening, as it sank low in the west, Sirius seemed changing color every moment, displaying all the hues of the rainbow.

Sirius ranks as the brightest star in the heavens. When one contemplates that radiant orb, resplendent in the evening sky, and reflects that it is a sun twelve times as large as our own, he naturally wishes for a look at it through a monster telescope. Yet the most powerful glass shows it only as a luminous point, so vast in the distance between us and the stars. And the diameter of Sirius is estimated at 11,000,000 miles. So far off is it that figures are powerless to convey any idea of the vast depths of space through which it beams upon us. Astronomers estimate that it takes over twenty years for light to come down to the earth from the Dog star. And light travels 192,000 miles in a second. So that Sirius may have dropped out of existence nineteen years ago, and its light be still coming down to us. What imagination can conceive of a profundity so stupendous! And yet there are stars far more distant from the earth than Sirius.

No study is so well fitted to expand the mind as what is called descriptive astronomy. The earth and all its affairs seem utterly insignificant in view of the starry heavens, with some slight perception of their awful mysteries. One little solar system seems of slight moment in sight of five or six thousand greater ones, for so many stars can be seen with the naked eye. The stars are all suns, and each probably has its planets as ours has. Sirius is known to have a satellite. It was discovered in 1862.

Yes, 5,000 seem a good many, but the astronomers, with their great glasses, how many can they see! Over 77,000,000 of the first thirteen magnitudes! And still these are few compared with the infinite number of the stars. They are countless, worlds without end. The young man of the period would do well to look at the stars a little oftener and allow them to give him a little quiet instruction. He is apt to think that the universe would suffer somewhat were he to die suddenly. But let him fix his eyes on Sirius and set his imagination to work. Let him reflect that a young man like himself, standing on Sirius (a pretty hot place, but never mind), could not see the earth at all and would alone be apprised of the existence of our sun by a feeble glimmer. So little indeed would our sun look to the Sirian, that a thread in the line of sight, a hundred yards from his eyes, would hide this solar system from view altogether. Now, wouldn't the Sirian be justified in thinking that our young man occupied a pretty small place in the economy of the universe! And wouldn't he be about right!

In fact it is probable that to the well informed observer on Sirius even General Grant would seem a small creature to make much fuss about.

MORAL COWARDICE.

The weakness of the two parties may be measured by the stand they take on the Bayard bill. This measure has become necessary in the natural course of events. It is the next logical step in the financial history of the country. It is just as reasonable and proper, as for a farmer to close a gap in his fence or a business man, who has reduced all his accounts to routine, to put a check on some previously unexpected point. The Republican party has never taken high ground upon any question without drawing to it sufficient strength to win the fight. Its life has been a triumphal march and it will go ringing down the ages, among the grand epics of history. But parties cannot live on records any more than men can live on a last week's dinner. The time servers, the Conkings, Blaines, Camerons and Gormans, have

that great party by the throat, and they "deprecate" any revival of the currency question, or any other question but the bloody shirt. They want to devote the next six months to blowing their horns about what the party has done, with their assistance, and what proud and glorious fellows they are. The campaign of 1880 will be fought on the spoils and bloody shirt basis, and politics will sink to the lowest level they have seen since 1850.

SHARON AND THE CZAR.

It is a somewhat noteworthy coincidence that the Czar of Russia and Senator Sharon should intimate a readiness to resign at about the same time. Thus the minds of great men are apt to move in the same channel. The Czar has been persuaded not to send in his resignation, although there can be little doubt that it would be cheerfully accepted by the Russian people. Senator Sharon has not tendered his resignation, yet his constituents would be happy to relieve him of those duties and responsibilities, the burden of which the Senator says he has at last learned to feel. Has not he, then, like the Czar, been persuaded to bear with an ungrateful people yet a little longer!

There appears to be another remarkable coincidence here.

EDITORIAL NOTES.

The New York Herald has this concerning deep wells: It may not be easy to tap the great internal water reservoir of the Rocky mountains, but the deeper the bore the fuller the perpetual stream is exemplified in the artesian well at Greenville, near Paris, which was not started until nearly eighteen hundred feet of soil had been perforated and four years were spent in boring. It has a thousand and told repaid its cost, discharging considerably more than half a million gallons every twenty four hours.

The Chinese quarter of San Francisco is being made more fit for human beings to live in. The Bulletin states that the Chinese are painting, whitewashing and cleaning up generally. The condition of the Chinese quarter has been materially improved. It is difficult, however, to enforce the cubic air ordinance, because white residents who own property in that section say it is unjust. Several have refused outright to comply with it. According to its provisions a room 10 by 6 feet and 8 feet high does not contain air sufficient for one person.

A Chicago dispatch says: The police have captured an extensive gang of railroad freight-car robbers, whose depredations within two months have, it is believed, amounted to \$30,000, or \$40,000, the sufferers being the Lake Shore, C.B. & Q. and the C.R. I. & P. roads. A large quantity of the plunder has been recovered. Their plan was to rob the cars while on the track, under the pretense of being employees of the railroads.

The close season for game commenced in California yesterday. Any person "who hunts, pursues, takes, kills or destroys quail, partridge or grouse, mallard, wood, or summer duck, red-head, gadwall, or gray duck, or blue-winged teal, is guilty of a misdemeanor."

Eureka is—well, a little doubtful about Leadville, as this paragraph from the Ledger shows:

The attempt to make a true fissure out of a horizontal bed of ore is not a pronounced success at Leadville. Theory is one thing and demonstrated facts another. Even that second stratum has not been proven yet.

Says the Bulletin: There is not a city or town in the State, with the exception of San Francisco, which is not doing tolerably well at this time. Here alone there is depression.

The Legislature of Mississippi has imposed a tax of \$3 upon bachelors over 25 years of age. Such a tax in Nevada would yield considerable revenue.

"Tear of the Clouds" is the romantic name of the lakelet, 1,000 feet below the summit of Mount Marcy, that is called the source of the Hudson River. It is over 4,000 feet above the sea level, and nestles among some stunted spruce trees that fringe the mountain side.

Ira McNeal and John Ryan, two prisoners in the Sutter county jail, made their escape Sunday afternoon, by sawing off the iron bolts to the door. The former was held for grand larceny and the latter for burglary. Sheriff Harkey offers \$100 for their arrest.

There are about one hundred people now in camp at Virginia City, Colorado. There is no meat or bacon in the country, and no candles. Tunnel work is stopped, and the miners are living on flour and dried fruit. There is only a snow-shoe trail from Alpine, and no way to get anything in.

The directors of the Humboldt District A. M. & M. Society have deeded their Fair grounds to Thos. Lawson. The consideration is about \$3,000. The Society was indebted to Mr. Lawson, and concluded to transfer their property to him, with the understanding that they can get it back within a reasonable time.

A few nights ago Mrs. Parish, of Dayton, found a wildcat raiding her hen roost, and attacking the animal with a pitchfork, succeeded in killing it. The wildcat reversed the fight, charging upon Mrs. Parish as soon as she came near, when she received him on the prongs of the fork, and is now able to plead self-defense.

The prospect for a good crop in the northern part of Colusa county never was better at this time of the year. The night is beautiful to behold; as far as the eye can see there is nothing but the prettiest of green fields, and the young wild flowers are just beginning to make their pleasing appearance.

Three prisoners who were lying in jail at Eugene City, Oregon, awaiting action of the Grand Jury, have broken out of jail. Following are the names of escaped prisoners: George Campbell, charged with grand larceny; Charles Sargeant, grand larceny; John Lance, rape. At last accounts they had not been recaptured.

An old gentleman, who claims to have been the discoverer of Pioche District, Nevada, passed through Weaverville, Trinity county, last week, on his way to New River, where last summer discovered a quartz lode six feet in width and of a promising character. He intends to prospect further before erecting any works.

Priglitful Loss of Cattle.

A Victoria dispatch says the express brings deplorable news from the upper country. Cattle, sheep, horses and pack trains are dying with great rapidity. All through Nicola, Kamloops, Okanagan and Lillooet the destruction of stock is going on. Nearly all the live stock will perish before Spring. The loss is estimated roughly at \$1,000,000. Scores of stock raisers will be reduced from affluence to poverty. The snow lies from three to five feet in depth and gives no evidence of a thaw.

A Brother-in-Law's Love.

John Woolery was angry at Leadville, because his wife's sister, Nannie, did not come home directly from church, and he remarked that she was probably loitering with a sweetheart. Mrs. Woolery had previously suspected him of being in love with Nannie, and now she accused him openly. He replied: "If any man comes home with her I'll show you whether I love her." A man did accompany her to the door. Woolery shot her, though not fatally, and then killed himself.

A Wily Frenchman.

While sight seeing in the upper part of Manhattan Island the other day, M. de Lesseps noticed the costly dray building in quarters where no houses were and where none would be apparently for years to come. "They are intended, I suppose, to drain your city exchequer," he remarked.

The Northern Pacific Logging Company, situated on the banks of the Yakima River, at the foot of the Cascade Range, W. T., employ about one hundred and twenty-five men. FRANKTOWN LETTER.

Snow and Ice—Fishing and Shooting—Splendid Farming Prospects—Electioneering—Good Templars—The Ball—A Good Duck Story.

From our own Correspondent.
Franktown is very quiet at present. For the last two nights it has been exceedingly cold, the wind blowing the most of the time from the north, a rare thing at this time of the year. The ice on Washoe lake is some eight or ten inches thick. The lake has been frozen over very near four months, something that has not happened here before since 1863. Fishing in the lake is very good. The boys are having lots of sport. They cut a hole through the ice, and then "go for 'em." John Duval is "chief." He catches all the way from one to four buckets full every time he goes out. The snow is disappearing very fast from the valley; all that's left is small patches, here and there, where it drifted in large quantities. But the ground is still frozen from four to twelve inches in depth. Hunting is splendid in the valley now; any number of ducks and a very few geese.

The farmers are making large preparations for farming in earnest this season. The indications at present for a large yield are splendid, and all farmers in the valley will do well to improve the chance. We understand that Messrs. Winters and Looper are going to put in between 400 and 500 acres this spring, and other farms in the valley will follow suit. Hay is getting scarce and commands a good price. Very poor grass hay is selling at \$18 per ton. Stock, as a rule, in this valley are looking well, very few dying. Messrs. Winters and Looper have lost a few head of sheep, otherwise the farmers have been unusually lucky. But at the present time they are at a loss to know whether it is going to be winter all summer or summer all winter.

Deacon Parkinson came out from Carson last Friday, and opened the campaign in earnest by stating that he was electioneering for certain parties that live in Reno. He and some of the boys got to feeling pretty good and he told them what he knew about voting. The Good Templars in Franktown are in a prosperous condition and are doing good work. They have between forty and fifty members in good standing, and their number is still increasing. Next Saturday evening they will have an open meeting, when speaking, recitations, songs, etc. will be in order. A general invitation is extended throughout the county and vicinity. They are sure to have a pleasant time.

The ball at the Mansion Friday night was all that could be expected. There were twenty-one couples in attendance. The music furnished by Prof. Harcourt and lady was splendid; all enjoyed themselves immensely.

Dick McIntosh went out hunting last Friday morning and found a lot of ducks in a pond of water near Franktown. It was very cold and the ducks appeared to be frozen in the pond. But on examining them he found they had been playing and got wet and there was a coating of ice all over them, so they could not fly. Dick thought he would drive them home and show the boys how to catch ducks, so off he started. But before he got home the sun came out pretty warm and thawed out the ducks, and to the surprise of Dick they all flew off. Don't say "ducks" to him if you do not want to get "head" put on you. C. A. L.

The following is the list of the overland passengers to pass through Reno this evening on the Pacific express: D. Perkins, Rocklin, Cal.; J. K. Duncan, Valejo, Cal.; Geo. W. Handy, Oakland, Cal.; Mrs. Bell, Kentucky; John B. Haskins, Adele D. Haskins, N. F. Smith, wife and child, New York; Fred Morse, Boston; W. C. Johnson, China; John Middleton, Yokohama; J. K. Cunningham, Japan; Mr. Evans, China; H. McGregor, Louisiana; E. J. Gough, Yokohama; Louis Stodder, Alaska; M. S. Fienberg, Henry S. Brooks, San Francisco. The passengers that should have passed through last evening will be on the train to-night, in addition to those above named. The C. P. and U. P. trains failed to connect at Ogden Sunday night.

Fire in Oakland.

J. T. Gardner lost his shop and residence in Oakland, by fire on Sunday night. He is an old Reno man and a brother of R. P. M. Kelly.

COT HIS DESERTS.

Kearney Fined \$1,000 and to be Imprisoned for Six Months.

SAN FRANCISCO, March 17.—Judge Rix in the Police Court yesterday found Denis Kearney guilty of using profane and incendiary language. This morning Kearney was sentenced to six months' imprisonment and to pay a fine of \$1,000.

The Bodie Railroad.

The Lyon County Times states that the surveying party on the Bodie extension of the Virginia and Truckee railroad has the grade stakes set as far as Stinking Wells, in Churchill valley. As from this point the route has not been decided upon, the main body of the party has returned to Carson. A reconnoitering party has gone out to determine whether they will make Walker Lake a portion of the route by means of boats or whether they will continue south through Mason valley to Aurora and Bodie. If the Walker Lake route is adopted, Candelaria will be the objective point. They will then be closer to several prominent camps on the eastern side of the lake.

The Masquerade Ball.

Tickets for the masquerade ball to-morrow evening can be procured at the postoffice and at the Theatre cigar stand. There will be four prizes given. Two will be awarded for the best costumes, and two for the most original characters. The prizes are a silver napkin ring, a pair of moss-agate sleeve buttons, a pair of ladies' cuff pins and a toilet set.

Tickets have sold well, and the management say the affair will be a great success. Those who are going say that they are not, in order to delude their friends and escape detection at the ball. The ladies at Mrs. Kimball's house have a great variety of beautiful costumes for hire.

Kalecoming the Court House.

Eight proposals for kalecoming the court house throughout, excepting the jail and the Auditor's office, were opened by the County Commissioners this afternoon. The bids were as follows: W. H. Clancy, \$140; P. F. Dugan, \$150; Thos. E. Tippett, \$200; Farmer & Fowle, \$145; R. McGee, \$145; M. P. Campbell, \$117 50; I. F. Benham, \$200; D. W. Madden, \$120. Dugan was awarded the contract, his bid being among the lowest and he being known to the Commissioners as a good workman.

The Murderer Lopez.

Sheriff Fitch, of Elko, arrived last evening with the murderer, Lopez, whom he took to Carson to-day. Lopez is sentenced to be hanged in Elko April 16, and the sheriff, fearing the man would be taken out of jail and lynched, decided to convey him to the state prison for safe keeping. Lopez brutally murdered a sleeping comrade with an axe, near Elko, about two months ago.

The Children's Concert.

The children acquitted themselves admirably at the "Old Folks" concert last evening. Everybody speaks well of their performance. Mrs. Alt's dancing school kept many from going, who will attend the concert this evening. The managers expect a full house to-night. Go to hear them. The admission is but fifty cents.

We Can't Talk

Without showing the condition of our teeth. Every laugh exposes them. In order not to be ashamed of them let us use that standard dentifrice, SOZODONT, which is sure to keep them white and spotless. No tartar can encrust them, no canker affect the enamel, no species of decay infest the dental bone, if SOZODONT is regularly used. It is a botanical preparation, and its beneficial effect on the teeth and gums are marvelous, as it removes all discolorations, and renders the gums hard and rosy. D&W

Solid Abyssinian Gold Watch
FREE! FREE! FREE!!!

The above offer is genuine, although at first
sight you would consider it impossible. We
will explain: Since we have established our
business here, March 1st, 1873, we have paid
particular attention to the buying of Bank-
rupt and Auction lots of Jewelry and Watches,
often buying at as low as one-tenth their
value, and in no instance have we paid over
one-sixth the manufacturers' price. Since
starting we have always been able to dispose
of these goods in Chicago and through our
regular customers throughout the country at
nearly regular prices, as fast as we could re-
ceive them, but owing to the large number of
failures among the heaviest dealers and man-
ufacturers throughout this and other coun-
tries during the months of June, July and
August (the time when the jewelry business
is stagnant), we have now on hand an im-
mense stock of the most desirable goods we
have ever handled, and which we have bought
at lower prices than ever before. In order to
dispose of this entire stock in the most
expedient manner possible, and make room for
new ones which we shall continue to buy, we
have hit upon the following novel plan:

We propose to give you a list of the most
desirable of these goods, giving opposite each
article its regular retail value, and sell to you
at the rate of Five Dollars worth for \$1. For
instance, on receipt of 50 cts. we will send
you, postpaid, any article to the value of
\$5.00 on receipt of \$1.00, and so on to the value
of \$25.00, and so on throughout the entire list.
Below we give a list of the most valuable of
these goods:

All of this jewelry is of a good quality, but,
of course, the quality depends greatly on the
price; for instance, the \$5.00 articles are of a
much finer quality and finish, besides being
heavier than the \$2.50 ones.
